INFORMATION DISCLOSURE STATEMENT

UNDER 37 CFR § 1.97

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Please find, pursuant to 37 C.F.R. § 1.98 (a) (1), enclosed Form PTO-1449 that contains a list of all patents, publications, or other items that have come to the attention of one or more of the individuals designated in 37 C.F.R. § 1.56 (c). While no representation is made that any of these references may be "prior art" within the meaning of that term under 37 C.F.R. §§ 102 or 103, the enclosed list of references is disclosed to fully comply with the duty of disclosure set forth in 37 C.F.R. § 1.56.

Pursuant to 37 C.F.R. § 1.97 (g) and (h), Applicant makes no representation that a search has been made or that the information cited is considered to be material to patentability. Additionally,

Appl. No. : 10/540,788
Filed : June 27, 2005

Applicant makes no representation regarding the completeness of this list nor represents that other art does not exist.

Applicant has listed publication dates on the attached Form PTO-1449 based on information that is presently available to the undersigned attorney of record. The listed publication dates, however, should not be construed as an admission that the references were actually published on the dates indicated and Applicant reserves the right to establish the actual publication dates of any of these references.

Applicant also reserves the right to establish patentability of the claimed invention over any of the listed references, and/or to prove that any of the listed references are not prior art, and/or to prove that any of the listed references do not enable or otherwise teach, suggest or disclose the claimed invention.

In accordance with United States Patent and Trademark Office OG Notice dated August 5, 2003, which waived the requirement under 37 C.F.R. § 1.98 (a) (2) (i) for submitting a copy of each cited U.S. patent and each U.S. patent application publication for all U.S. national patent applications filed after June 30, 2003, a copy of listed U.S. patents and U.S. patent application publications is not enclosed.

In accordance with 37 C.F.R. §§ 1.97 and 1.98, a copy of each of the listed foreign references or relevant portion thereof is enclosed.

In accordance with 37 C.F.R. § 1.98 (c), all English translations within the possession, custody, control or availability of anyone designated in 37 C.F.R. § 1.56 (c) of each non-English reference, if any, are also enclosed.

Appl. No. : 10/540,788

Statement of Relevance of References Listed
Unaccompanied by English Translation
Under 37 C.F.R. § 1.98(a)(3)

In accordance with 37 C.F.R. § 1.98(a)(3), the following concise explanation of the relevance of each listed reference that is not in the English language and unaccompanied by a translation into English is provided:

PCT Patent No. WO 98/44507, 10/8/1998: Disk Storage Device and Method for the Production Thereof. The invention relates to a disk storage device comprising one or more disk-type information carriers which are or can be fixed to a revolving disk carrier hub and are accommodated in an operating space of a device housing, said operating space being closed off from the environment. Data can be recorded or read out by or on these disk-type information carriers by means of optical or magnetic write/read heads which can be moved over the information carriers. The disk carrier hub and the write/read heads, together with their drive units, are mounted on a single piece device chassis. The bearing and mounting surfaces for the hub of the information carrier disks and the write/read heads and their drive units are processed on the device chassis in a clamp. The device chassis is made from a plate produced by stamping and shaping or embossing. The device can be produced in less stages and overall more economically using a chassis formed as a stamped and shaped plate and is also considerably easier to automatize compared to the castings which have been used as device chassis up until now. The invention also relates to a method for producing a disk storage device of this type.

The U.S. Patent and Trademark Office is hereby authorized to charge any fee deficiency or credit any overpayment to our Deposit Account No. 23-3178 in connection with filing this document and any other documents filed herewith.

DATED this 11 day of October, 2005.

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'M. Ballard', with a long horizontal stroke extending to the left.
